

“...Devonshires has helped us to make the right decisions and stay ahead with clear and robust advice on legal and strategic matters...”

### **Our Resources**

Our Banking team consists of a group of specialist legal practitioners – partners, solicitors and trainees – who, individually and collectively, deal with all types of finance transactions.

Our Banking work also compliments our corporate and property work, particularly in relation to joint ventures, securitisation, group structures and our M&A work. This means we can draw on a team of experienced professionals within the wider firm to provide you with a comprehensive legal service.

### **Added Value**

To help you keep up-to-date with legal issues, members of our team contribute regularly to in-house and external specialist publications and frequently speak at both internal and outside seminars.

### **Our Aim**

We aim to maintain and build on the reputation we have as a leading banking practice. We are also keen to maintain our pre-eminent position in the social housing sector, so we always stay completely focused on the people who are most important to us – our clients.
